December 2014

NEWS FROM THE HILL

The CAR Association keeps a close eye on legislative issues that effect the auto cycling industry and small business on the local level. Hicks & Associates provides lobbying service to the association and keeps us informed about bills that may impact our members.

RJ Hicks has provided some information for us on HB1432 - a bill that was passed in 2014 that addresses waste tire disposal sites. [Click here](#) to read the synopsis and what it means to auto recyclers.

We will continue to update you in upcoming emails on legislative information.
